To the Audit Committee of the Board of Directors of  
Strata-X Energy Ltd.

In accordance with our engagement letter dated November 28, 2017, we have performed interim reviews of the interim condensed consolidated financial statements of Strata-X Energy Ltd. which comprise the interim condensed consolidated statement of financial position as at December 31, 2017, and the interim condensed consolidated statements of loss and comprehensive loss, interim condensed consolidated statements of changes in shareholders' equity, and interim condensed consolidated statements of cash flows for the six month periods ended December 31, 2017 and 2016. These interim condensed consolidated financial statements are the responsibility of the Company's management.

We performed our interim reviews in accordance with Canadian generally accepted standards for a review of interim condensed consolidated financial statements by an entity's auditor.

An interim review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements. Accordingly, we do not express such an opinion. An interim review does not provide assurance that we would become aware of any or all significant matters that might be identified in an audit.

Based on our interim reviews, we are not aware of any material modification that needs to be made for these interim condensed consolidated financial statements to be in accordance with International Financial Reporting Standards applicable to the preparation of interim financial statements, including International Accounting Standard 34, "*Interim Financial Reporting*".

We have previously audited, in accordance with Canadian generally accepted auditing standards, the consolidated statement of financial position of Strata-X Energy Ltd. as at June 30, 2017 and the related consolidated statement of loss and comprehensive loss, consolidated statement of changes in shareholders' equity, and consolidated statement of cash flows for the year then ended (not presented herein). In our report dated September 20, 2017, we expressed an unmodified audit opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying interim condensed consolidated statement of financial position as at June 30, 2017 is fairly stated, in all material respects, in relation to the consolidated financial statements from which it has been derived.

This report is solely for the use of the Audit Committee of the Board of Directors of Strata-X Energy Ltd. to assist it in discharging its regulatory obligation to review these interim condensed consolidated financial statements, and should not be used for any other purpose. Any use that a third party makes of this report, or any reliance or decisions made based on it, are the responsibility of such third party. We accept no responsibility for loss or damages, if any, suffered by any third party as a result of decisions made or actions taken based on this report.

## **1. Nature of Business and Going Concern**

### **Nature of Business**

Strata-X Energy Ltd. (the "Company") was incorporated by Certificate of Incorporation issued pursuant to the provisions of the Business Corporations Act of Alberta on 18 June 2007. Through its subsidiaries, the Company's business activities are directed primarily toward the acquisition, exploration and development of oil and gas properties in the states of California and Illinois within the United States and in the Republic of Botswana in Africa. The headquarters of the Company are located at 1620 Market Street, Suite #3W, Denver, Colorado 80202.

Strata-X Energy, Ltd. is a publicly traded company on the TSX-Venture Exchange under the symbol "SXE.V", and on the Australian Securities Exchange under the symbol "ASX.SXA". Effective 23 November 2016, a 3 for 1 share consolidation was approved by the shareholders of the Company. These financial results are presented on the basis of the post-consolidated shares outstanding. All share, option, warrant and per share comparative numbers have been retroactively restated to reflect the share consolidation.

### **Going Concern**

The interim condensed consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company incurred a net loss of \$307,011 for the six months ended 31 December 2017 (year ended 30 June 2017 - \$2,441,739) and has an accumulated deficit of \$48,473,800 as of 31 December 2017 (30 June 2017 - \$48,166,789). In addition, the Company incurred negative operating cash flows before changes in non-cash working capital of \$246,790 for the six month period ended 31 December 2017 (year ended 30 June 2017 - \$584,830).

Management has been and continues to be active in seeking additional means to sustain the Company's financial position during the current economic environment including but not limited to investigating potential partnership, merger and/or joint venture opportunities and acquiring and disposing of oil and natural gas properties. In addition, the Company continues to focus on development of the CSG Project (Note 13). In January 2018, the Company pre-empted a third party offer to buy out the interest held by the arm's length third party in the CSG Project. The pre-empt calls for an immediate deposit of AUD\$25,000, along with additional payments over time totaling AUD\$525,000 upon successful execution of a purchase and sale agreement, at which time the Company would secure 100% of the working interests in the project. To potentially offset the cost to buy out the interest, the Company is actively engaged in farm-out discussions with third parties to sell a non-operated position in the tenements in the project. In February 2018, the prospecting licenses covering the project were re-issued by the Republic of Botswana until the end of 2025, allowing the Company a timeframe for proving existing reserves and additional time to market a potential sale of a non-operated position in the project. Management anticipates the need for further financing and/or equity funding to fund future exploration and development of the Company's various oil and gas properties including the CSG Project (Note 13).

## 1. Nature of Business and Going Concern (continued)

### Going Concern (continued)

The Company cannot provide any assurance that sufficient cash flows will be generated from operating activities or that proceeds from other activities noted above will be able to sustain the Company's financial position.

The above-noted factors describe matters and conditions that indicate the existence of a material uncertainty that may cast significant doubt as to the Company's ability to continue as a going concern. Management considers the Company a going concern and has prepared the interim condensed consolidated financial statements on a going concern basis.

## 2. Basis of Presentation

### a) Statement of Compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the presentation of interim financial statements, including International Accounting Standards ("IAS") 34, "*Interim Financial Reporting*", as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain financial information and disclosure normally included in annual financial statements prepared in accordance with IFRS have been omitted or condensed. The disclosure herein is incremental to the disclosure included in the annual financial statements. The interim condensed consolidated financial statements should be read in conjunction with the Company's audited financial statements for the year ended 30 June 2017.

The policies applied in these interim condensed consolidated financial statements are based on IFRS issued and outstanding as of 13 February 2018, the date of the Board of Directors' approval of the statements.

### b) Reporting entity

The interim condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Strata-X, Inc. domiciled in the United States and Strata-X Australia PTY Ltd. domiciled in Queensland, Australia. In January 2017, Rhino CBM (Proprietary) Limited ("Rhino") was incorporated in accordance with the Companies Act of the Republic of Botswana, Africa, and is a wholly-owned subsidiary of Strata-X, Australia PTY Ltd. In 2017, SXE Innovations, LLC was formed as a wholly-owned subsidiary of Strata-X, Inc. In December 2017 Sharpay Enterprises Pty Limited ("Sharpay") and Jab Right Pty Limited ("Jab Right") were incorporated in accordance with the Companies Act of the Republic of Botswana, Africa, and are wholly-owned subsidiaries of Strata-X Australia PTY Ltd.

### 2. Basis of Presentation (continued)

#### c) Management's Significant Accounting Judgments, Estimates and Assumptions

The timely preparation of interim condensed financial statements requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities at the date of the interim condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results may differ from these estimates.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Accounting estimates will, by definition, seldom equal the actual results. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future years affected. There have been no changes to the use of estimates or management's judgments since 30 June 2017.

### 3. Significant Accounting Policies

The interim condensed consolidated financial statements have been prepared following the same accounting policies and methods of computation as the Company's 30 June 2017 annual consolidated financial statements. The Company continues to assess the impact of adopting the pronouncements of the IASB as described in the Company's 30 June 2017 annual financial statements, however does not expect any significant impact.

### 4. Segment Reporting

The Company operates in one industry segment, being the oil and gas industry, in several geographic locations. There have been no changes to the Company's geographic locations or industry segments since 30 June 2017. Segmented information in USD by geographic location is as follows:

As at and for the six months ended 31 December 2017:

\$ 0.05	CDN	3,800,000	-	4.97
		<u>8,740,000</u>	<u>4,940,000</u>	

During the six months ended 31 December 2017, the Company expensed the fair value recognized for stock options of \$9,365 (31 December 2016 - \$41,678) as general and administrative costs with a corresponding adjustment to share based compensation reserve in shareholders' equity.

The Company uses the Black-Scholes option pricing model to value the options at each grant date under the following weighted average assumptions:

	31 December 2017
Exercise price	<u>\$0.05 CAN</u>
Grant date fair value	\$0.02 CAN
Expected dividend rate	0%
Expected volatility	105%
Risk-free interest rate	1.00%
Expected life of options (years)	5.00
Forfeiture rate	0.0%
Share price on grant date	\$0.03 CAN

Expected volatility was determined based on the Company's historical volatility and a comparison to other companies in the business of exploration for and development of production of oil and natural gas. A forfeiture rate of 0% was used when recording stock-based compensation as it is expected that all officers, directors, employees and consultants will continue with the Company over the vesting period.

### 11. Financial Instruments

#### Financial risk management

The Company's activities are exposed to a variety of financial risks: interest rate risk, market risk, credit risk, liquidity risk, commodity price risk and foreign exchange risk. There were no changes to the Company's risk management policies or processes during the six month period ended 31 December 2017.

#### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they are due. As at 31 December 2017, the Company had a positive working capital of \$541,516 (30 June 2017 - \$840,258). The commodity price environment experienced during the period has negatively impacted earnings and operating cash flow.

The Company continues to focus on minimal capital activities, reducing operating and general and administrative costs and enhancing operational efficiencies to preserve the Company's financial health and sustainability in the current price environment. As discussed in Note 1, management continues to seek additional means to sustain the Company's financial position and liquidity including but not limited to investigating potential partnership, merger and/or joint venture opportunities and acquiring and disposing of oil and natural gas properties and, as circumstances and conditions dictate, the successful completion of further private placements. The Company cannot provide any assurance that sufficient cash flows will be generated from operating activities or that proceeds from other activities will be able to provide adequate working capital to sustain operations for the long-term.

The Company's non-derivative financial liabilities on the statement of financial position consist of the following contractual maturities:

	Less than a year	After 5 years
Accounts payable and accrued liabilities	\$ 120,725	\$ -
Amounts due to related parties	6,267	-
Accrued liabilities	-	63,048
	<u>\$ 126,992</u>	<u>\$ 63,048</u>

The amounts recorded for accrued liabilities relate to amounts received from joint interest partners for their share of future remediation of oil and natural gas interests.

The Company is also subject to commitments as disclosed in Note 13.

### **11. Financial Instruments (continued)**

#### **Credit risk**

The Company's exposure to credit risk relates to cash and cash equivalents, accounts receivables and other assets and arises from the possibility that the third party does not satisfy its contractual obligations. The Company minimizes its exposure to credit risk by keeping the majority of its cash and cash equivalents with major chartered banks. The Company performs continuous evaluation of its accounts receivables and records an allowance for doubtful accounts when determined necessary. The Company's maximum exposure to credit risk is equal to the carrying value of these financial assets being \$873,374 at 31 December 2017 (30 June 2017 - \$1,283,012). It is management's opinion that the level of credit risk is low due to the credit-worthiness of the counterparties involved and that its counterparties currently have the financial capacity to settle outstanding obligations in the normal course of business.

As of 31 December 2017, the Company recorded an allowance for doubtful accounts of \$156,090 (30 June 2017 - \$156,090) related to an amount due from a project operator that was greater than 90 days outstanding. Included in accounts receivable is an amount past due of \$48,172 (30 June 2017 - \$39,528).

#### **Market risk**

The Company's exposure to market risk is the risk that the fair value of future cash flows from a financial instrument will fluctuate because of changes in market prices. Market risk comprises interest rate risk, foreign exchange risk and commodity price risk. There is no significant changes to the Company's exposure to market risks since 30 June 2017.

### 12. Capital Management

The Company's objective when managing capital is to progress the exploration and development of natural gas properties in Botswana, under Rhino, by maintaining adequate cash resources to support its planned activities through the prudent deployment of capital. As noted above, the Company continues to focus on activities that represent the best, and highest use of available capital. The Company includes shareholders' equity in the definition of capital.

Historically, funding for the Company's plan was primarily managed through the issuance of additional common shares and through its commercial activities. There are no assurances that funds will be made available to the Company when required. There were no changes in the Company's approach to capital management during the period.

The Company is not subject to externally imposed capital requirements.

Total capital managed is as follows:

	<b>31 December 2017</b>	<b>30 June 2017</b>
Shareholders' equity	<b><u>\$ 12,377,352</u></b>	<b><u>\$ 12,668,095</u></b>

Total capital managed decreased for the six months ended 31 December 2017 due to the overall use of cash in operating activities for the period.

### **13. Commitments**

#### Farm-in agreement and subsequent purchase of interests

In December 2016, Rhino entered into a farm-in agreement (“Agreement”) with an arms-length company (“Farmco”) for a 3 stage farm-in over an expected term of 3 years to earn up to 75% of the Serowe coal seam gas project (“CSG Project”) located on the Kalahari Basin CSG Fairway in Botswana, Africa. The three stages of the farm-in agreement were defined by Milestone Dates per the Agreement, with the Stage 1 Milestone Date being March 2018, with an option for extension.

In January 2018, the Company, through its wholly-owned subsidiary, Sharpay Enterprises Pty Ltd., pre-empted a third party offer to buy out Farmco’s interest in the CSG Project. The pre-empt offer was on similar terms to the third party offer, including an initial deposit of AUD\$25,000 to Farmco along with execution of a purchase and sale agreement (“PSA”) by the end of February 2018. Upon execution of the PSA and satisfaction of certain conditions, the Company will pay Farmco AUD\$125,000 and grant an overriding royalty interest to Farmco of 0.875%. The Company will pay Farmco AUD\$200,000 within 60 days of execution of the PSA and an additional AUD\$200,000 within 135 days of execution. Once executed, the Company will have secured 100% of the working interests in the project.

In early 2018, the Republic of Botswana re-issued the prospecting licenses covering the CSG Project. Concurrently, the tenements were released from Rhino and granted to Sharpay. The renewed licenses expire in 2025.

Rhino has recorded approximately \$112,000 of license acquisition costs and other related costs as exploration and evaluation assets at 31 December 2017, including the initial deposit required to execute the pre-empt offer of AUD\$25,000.

#### Office lease

The Company entered into a rental agreement in February 2018 for office premises to 31 May 2021 for a total commitment of \$96,160.
